# The Huddersfield & District Family History Society.

Present a talk entitled,  
**Tracing Military Personnel 1702-2009.**  
By Colin McInnes.

The talk is Military Research 1702-2009, for individual personnel, with reference to enlistment and service papers, and information available online and locally. It will help to discover what an individual did in his/her time in the forces, and perhaps even after his/her discharge. It will highlight free sources, as well as explain how to get the most out of some of the better known records. It will be of interest to beginners and more experienced researchers alike.
